PREMIUM SERVER RSF

RSF-42-80/10A

➤ The **PREMIUM Server RSF** rack has been designed as a pure server cabinet for data centers, equipment rooms and network or telecommunication closets. RSF's heavy-duty, all-welded design and up to 1500 kg load rating are perfect for accommodating heavy equipment. RSF is designed to work with both CONTEG's cooling and airflow optimization solutions and flexible cable management systems. RSF can be used with many complementary systems (e.g. Intelligent Power PDUs), making your servers safe and secure.

MAIN ADVANTAGES

- Pure server rack for heavy IT hardware (up to 1500 kg in weight and 52U in height)
- Fully configurable
- Unmatched 86% door perforation ratio decreases server fan power consumption
- Two unique extrusion types allow you to choose the best solution for your application

COLOR:  RAL 9005  RAL 7035

DESCRIPTION:

Sizes

- Height: 42, 45, 48, 52U
 - Width: 600, 800 mm
 - Depth: 800, 1000, 1200 mm
- For detailed information see the Dimensions and Features table

Construction

- Welded-frame design
- 1.5 & 2.0 mm sheet steel

Load rating

- 1500 kg balanced load

19" Vertical extrusions

- 2 pairs of sliding 19" vertical A-type (600 or 800 mm) extrusions without horizontal holders (for 800 mm provide additional 24U of installation space—valid for racks 42U and taller), adjustable from inside
- Options: 2 pairs of sliding 19" vertical L-type (600 mm) or P-type (800 mm) extrusions (provide additional 12U of installation space—valid for racks 42U and taller), adjustable from inside. Rear pair of vertical extrusions are divided into 3 parts (according to rack height) for individual settings (according to server depth).

IP rating

- Standard IP20
- IP40 when solid doors or panels applied
- Options: up to IP54 with multipoint lock only
- A/C-ready—IP54 when A/C unit installed with multipoint lock only

Colors

- Standard RAL 9005 and 7035

Front door

- Vented door—perforation rate 86%
- Swivel handle lock—DIN profile, universal key 333, multipoint; optional combination lock or electronic locks, single or multipoint
- Door opening angle 180°
- Easy re-hanging to open on right or left
- Options: glass, steel, perforated, glass with perforation, vertically divided door

Rear door

- Vented door—perforation rate 86%
- Swivel handle lock—DIN profile, universal key 333, multipoint; optional combination lock or electronic locks, single or multipoint
- Option: replaceable with full range of front doors and panels

Side panels

- Removable with locks

Top plate

- Single-piece design, removable
- 4" (100 mm) rounded cable entry in every corner covered by plastic cap
- 300×100 mm cable entries covered with removable blank sheet steel panels

Bottom plate

- Segmented design, removable
- 4" (100 mm) rounded cable entry in every corner covered by plastic caps
- 300×100 mm cable entries covered with removable blank sheet steel panels

Feet

- Adjustable feet standard; plinth or plinth with filter optional

Adaptation

- Can be adapted for installation of 21" equipment (on request, for 800 mm width only)

Other

- Installable in blocks with DP-DR-UNI (ordered separately)
- GND/earthing kit included

RSF RACKS

STANDARD CONFIGURATION (short Code only)		OPTIONS	
1	Front and rear vented door 86% with multipoint swivel handle lock	10	Plinth
2	2 pairs A-type 19" sliding extrusions	11	Plinth with filter
3	Vertical extrusion holders	12	1 pair of side panels with perforation
4	1 pair side panels with lock	13	Vertically divided glass door ^{1,2}
5	Adjustable feet	14	Vertically divided glass door with perforation ^{1,2}
6	Rack frame	15	Vertically divided vented door 86% ²
7	Removable F-design top plate with cable entry openings	16	Vertically divided perforated sheet steel door ²
8	Removable segmented bottom plate set (consists of C and F-design plates; may differ for other rack footprints) with cable entry openings	17	Vertically divided sheet steel door ²
9	Plastic caps and blank panels for cable entry openings	18	Glass door
-	GND/earthing kit	19	Glass door with side perforation
-	28 mounting kits	20	Perforated sheet steel door
-	FREE BONUS: 2 rounded cable grommets with brush DP-KP-RB4	21	Sheet steel door
		22	Rear panel with module
		23	Rear panel—1 piece
		24	Rear panel—perforated
		25	Removable B-design top plate with cable entry and ventilation openings
		26	Removable segmented bottom plate set (consists of B and G-design plates; may differ for other rack footprints) with cable entry and ventilation openings
		27	Rounded cable grommet with brush
		28	Blank panels for ventilation openings
		29	Ventilation unit
		30	Connecting kit with ventilation unit filter

¹Not available for 600 mm wide racks

²Requires multipoint lock
